Gee Creek Wilderness in Tennessee 🌲🦋

Gee Creek Wilderness is a small but exciting wild area in southeastern Tennessee, perfect for kids who love creeks, waterfalls, and exploring nature. These facts are simple, fun, and based on reliable information.

1. It's the smallest wilderness in the Cherokee National Forest

- Gee Creek Wilderness is only **2,493 acres**, making it tiny compared to most wilderness areas—but still full of adventure!

2. It was protected way back in 1975

- That means people have been keeping this forest wild and safe for almost 50 years.

3. The land has steep hills and tall trees

- Kids can explore forests, rocky slopes, and shady creek areas that feel like a natural playground.

4. Gee Creek has waterfalls and swimming spots

- The short Gee Creek Trail leads to "**Twin Falls**," a kid-favorite spot with splashing water and cool rocks.

5. Lots of animals live here

- Deer, birds, and other forest creatures make their homes in the wilderness, so kids might spot wildlife while hiking.
